

Welcome to this comprehensive dataset offering an in-depth exploration of the passenger experience with Ryanair, one of Europe's foremost low-cost airlines. This dataset compiles a diverse array of opinions and ratings provided directly by passengers themselves, covering various aspects of Ryanair flights **from 2012 to 2024**.

In this dataset, you'll find:

- Passenger-reported ratings on seat comfort, cabin crew service, food & beverages, ground service, and overall value for money.
- Detailed insights into the types of travelers, such as leisure, business, or family.
- Information on aircraft types, seat types, routes flown, and dates of travel.
- A breakdown of passenger nationalities and trip verification status.

From analyzing seat comfort to evaluating the overall value for money, this dataset provides a wealth of information to explore. Dive into the data to uncover trends, patterns, and valuable insights that can inform travelers, analysts, and aviation enthusiasts alike.

Explore, analyze, and discover firsthand what passengers have to say about their journeys with Ryanair!
